PREFACE

The volume - VII brings you the last five months of community welfare/development activities continuing from our 6th edition that were performed by YMCAs of Greater Hyderabad had been put in a nut shell in the form of magazine summarizing the vast programmes/activities for the benefit & awareness of the readers.

We value every minute contribution that builds the society which deserves to be rewarded by God. In a way you are filling your treasures in Heaven by extending your help to the needy time and again. It is the Christian faith and the principle of God which never fails and surpasses the human understanding and wisdom but yields fruit for sure. Do not be weary in doing good in due season you will reap the harvest, unless hand joins hand how can a good society be built.

We express our deepest gratitude for all the donors, likeminded, well wishers for your availability in time of need. No charity is complete without your generous contributions. While acknowledging your kind gestures we request you to uphold in your prayers the dire needs or the charity work that YMCA is carrying out. Since there is lot to do, still the weakest of the weak are beholding for someone who can strengthen/enable them with resources that will make them move forward in life.

Let us earnestly expect and pray that the tough times must come to an end.

PRESIDENT MESSAGE

It looks like the foul game is not yet over, the game of life and death is taking a new color now, seems like our sins have reached unto Heaven and God is cleaning his threshing floor, neither it is a game of entertainment nor a game of the Survival of the fittest. But survival is an unmerited favor of God. While the pandemic has ruined, showing no favoritism, on the other side it has taught us many lessons, it made us realize how fragile and uncertain is our life, the significance of our relationships, Caring for each other and considering each other, made us health conscious, diet conscious and fitness

freaks. The little period what we are on earth as sojourners/pilgrims must know death is uncertain and how you carry your life determines your destiny whether Heaven or Hell, it (the lifestyle) also creates a great impact on your surroundings.

Let us protect ourselves from the Virus by wearing face mask, Sanitizing and maintaining physical/social distancing as there were rumors of the third wave of COVID nearby. May God continue to protect and preserve us safe and secure and keep us hail and healthy in the days to come for his glory.

COME OUT OF GREED - CLING TO CONTENTMENT

As we are going through a horrifying scenario where our fore fathers have not seen neither our parents. The Present pandemic have made our life's too difficult to live upon. Children are confined to their homes no schools, no physical activities, no scope for peer group interaction, and many of the young people have lost their jobs which lead to various psychological traumas. The family relationships have become strenuous due to financial constraints and lack of social life. This pandemic made many individual lives pathetic as they lost their dear ones.

If we look into the word of God: According to 1st Timothy 6:10, For the love of money is the root of all evil “. The love towards money has spoiled the mind set of many individuals. People have learned how to exploit any given situations for their own benefit. Earning money for our needs is acceptable, but to have a greed for money is harmful for any individual.

At this point I would like to emphasize that as Christians we are directed by the word of God. In 1st Timothy 6:6, “But Godliness with contentment is Great Gain”. (Contentment is a greatest Virtue, which cannot be brought in a market place). According to the instructions given by Apostle Paul to Timothy is that to learn contentment and to live with what he have rather to grumble on what we don't have. Its always best to live within your resources, earnings thus we can lead a life with no complaints. Though the road which we are walking through may not be a cozy way but we have a God who can convert all the hurdles into opportunities. And let us develop an optimistic attitude that would make our living more comfortable and meaningful. Let us learn to compliment rather complaint.

Hyderabad Chess Centre launched

An indoor hall is provided for players to test their skills

SPECIAL CORRESPONDENT
HYDERABAD
The Hyderabad Chess Centre (HCC) was formally launched at Secunderabad YMCA with the specific objective of providing an indoor hall for all age group players to test their skills and share thoughts on the game, according to Kandi Ravi, national player and president of HCC.

Ravi informed *The Hindu* on Wednesday that the centre, the first of its kind in Telangana, will start with 20 members comprising senior and junior players and function on the lines of the famous Tal Chess Club in Chennai established in 1972.

"We are lagging far behind. But, we (former players) have decided to make a beginning. Since there are a lot of chess academies but no playing halls, we decided to start one for the benefit of the players who are not able to find a place and also quality

players," Ravi said.

Another former national player V. Sameer Kumar will be the secretary of the Centre which was inaugurated by the Telangana Chess Association president E.S. Prasad. In the presence of chief guests GM P.D.S. Girinath and E. Jayaker Daniel, president of YMCAs of Greater Hyderabad.

Fee structure

"Right now, 16 pairs of players can play simultaneously and depending on the response, we will move into a bigger hall," Ravi said. "We are in the process of finalising a minimum entry fee structure to ensure restricted entry into the hall."

"We hope the centre,

whose complete details and method of functioning will be on the website soon, will be very useful for all the outstation players willing to visit the city," Ravi said.

"The whole idea is to promote chess and encourage the players, especially those working to find time and pursue their passion in the sport."

The New Virtual World

R. James Kenneth

Branch Secretary, YMCA, Secunderabad

The online World from the school kids to the Rulers of the nations; matters, communication or correspondence is done through online like never before.

Passing through the era of human messengers, telegram, inland letters, radios, television, phone calls, pagers and e-mails etc. Advancing to the internet usage, the new video world is the trend or latest technique of connecting people.

Does our new virtual world affect human relationships, lively hood, life styles or entire scenario? Will the inevitable substitute of physical absence shall provide same equal opportunities? The answer is surely no. The raging Pandemic imbalanced the system, the

effect of uncertainty drowned/ vanished the resources of survival, especially a few classes of people are at great loss, the Nations had no clue therefore they are helpless. The resources fell deficit to save peoples lives (meet people needs). By the time we found solution the loss and damage was irreparable. If isolation is the only solution to conquer the pestilence then how would the lives move forward. It is essential to protect our lives by isolating ourselves as well as spreading the Virus furthermore but the gaps remaining unfilled. Can any helping hand lift up the effected souls and share the burden in such crises. Who is that Good Samaritan and where do we find him/her?
